Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is responsive to Amendment filed 11/09/2006.
2. Claims 60-61 are pending in this application. Claim 60 is independent claims. In Amendment, claims 1-59 are cancelled. This Office Action is made final.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 60-61 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 60-61 cite a system for performing a FFT according to a mathematical algorithm. In order for claims to be statutory, claims must either include a practical application at useful end or a discrete, useful, and tangible result, regardless the claims are implemented in hardware or software. However, claims 60-61 merely disclose a system for performing a FFT in a general computer comprising one or more processors. Claims 60-61 disclose purely mathematical and abstract idea. Claims 60-61 fail to disclose a practical application at the useful end or a tangible result. Therefore, claims 60-61 are directed to non-statutory subject matter.

Response to Arguments

5. Applicant's arguments filed 11/09/2006 have been fully considered but they are not persuasive.

a. The applicant argues in page 4 for claims 60-61 that claim 60 comports with the guidelines as it defines a "machine" that includes specific hardware structures, namely, vector processors.

The examiner respectfully submits that the interim guidelines clearly define a claim to be statutory must include a practical application or produce a useful, concrete, and tangible result regardless whether it is implemented in hardware or software. Thus, claims 60-61 are system claims having a plurality of general processors performing iteratively some mathematical operations to produce an ordering Fourier Transform outputs from input. Clearly claims 60-61 fail to produce the practical application or tangible result of having the ordering Fourier Transform outputs.

b. The applicant argues in page 5 for claim 60-61 that the claims do disclose a useful, concrete, and tangible result as Fourier transform ordered output from an input. The result is tangible as it is a real world result in the form of outputs that are ordered wherein ordering of the outputs allows them to be used with any additional post-processing of the outputs.

The examiner respectfully submits that the claims 60-61 do not quite disclose the tangible result as alleged by the applicant. Even though, the claims output

ordering Fourier Transform outputs, but they fail to disclose the application of final result within the context of disclosed practical application nor at least making it available for used in the disclosed practical application.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
